Offline-to-Online Connection

To enhance your experience for HKTDC's EXHIBITION+ experience, we have launched a brand-new service called "Scan2Match".

A physical foamboard printed with a unique QR code for will be pre-installed / delivered to exhibitor for each exhibitor on or before 12 October (move-in day). Buyers can use the HKTDC Marketplace app to initiate business connections with you by scanning the QR code. This allows buyers to chat with exhibitors, make enquiries, schedule meetings, view products/service details, add them to their favourites and view the e-floorplan.

Exhibitors can access the dashboard via the fair website or hktdc.com Sourcing, which provides a summary of the buyers' profile including the buyer's name, company, country/region and scan date. Using the Message Centre, exhibitors can initiate a chat with the buyer to start a conversation and build business connections even after physical fair ends.
